

THE AGE OF COMBINATION.

The future will have many problems which will require solution by the people for their protection. To prevent any solution by the people of these problems will constitute the chief opposition there will be to the action of the people by those who are interested in the problems the people will seek to solve.

Those who are profiting by the existing order of things will take the position of conservatives, while the people who will be trying to relieve themselves from oppression will be called anarchists, socialists, disturbers of business, etc., to the end of the list of names or terms that will apply to describe a dissatisfied public when engaged in a lawful way to bring relief to itself by making life tolerable under oppression.

The world has entered upon an age of great combinations in all business departments. Commercial enterprise, more particularly, is devoting its energies to combination in commercial departments, which is lawful, as business is now conducted.

The chief effort at this time by those engaged in commercial combination is to prevent any interference by the people with the work of combination going forward to the accomplishment of desired ends as speedily as time and circumstances will permit.

The people continue to be lukewarm on the subject and continue to say "Yes" at the ballot box when called on to declare their will regarding the matter, upon the theory that these fellows who call themselves Democrats cannot be trusted, which is too true when the rights of the people against their oppressors is the issue.

There is not a class better informed on the subject of the unfitness of Democrats for the purposes of capitalized organizations, as the objects of these organizations continue to unfold through combination, than the men who are of the class engaged in making great trusts.

A majority of the people are lukewarm on the subject while they receive sufficient to eat and the wherewithal to clothe themselves when winter overtakes summer.

Combination is in the order of things as a result of the times and of the forces pertaining to make conditions there are present upon the world. The work in commerce favors combination for large ends which will give results to the few against the many.

There is not the danger flowing from these combinations which is believed in a popular sense to exist, as combination contains within itself a two-edged sword. An edge of this sword will be applied to the destruction of combination when the time of combination in the hands of private individuals or in the hands of corporations is up to the time for its removal from private hands to the hands of the public.

It may not be generally understood as very little thought is given at this time by the masses to the subject that the chief weakness of large combinations will be in their size. When the edge of the two-edged sword intended for the people has been applied till they are wounded in their life in the battle which the combinations will wage upon them, the weakness mentioned will aid to remove these combinations from private to public ownership. Then the other edge of the two-edged sword will be applied to cut the hands which bind burdens upon the people.

The farther these combinations are removed from the people, the more weak will they be for defensive purposes, as the people will not be in sympathy with them. When these large combinations are removed from the masses through the ownership of the masses through the ownership of a few, the people will cease to take any interest in them, except in removing the oppression flowing from them, then the only question remaining for their support will be a right in property, which right will be disposed of in a just and lawful manner, but, without any doubt, to the disadvantage of the few, as the profits will be arranged in a way that will cause them to flow to the public.

Combination will have its advantages for a time and will be made oppressive, the contention to continue oppression upon the people will be political, which will include a control of government for the purpose of securing the means to continue oppression.

The political contention will be directed against Democracy, as it is now directed, when combination is going forward to secure from the people profits hoped for in the form of billions. To control government is, and will continue to be, the contention of the few against Democracy till the contention is settled in its favor.

The contention at present is by the few against Democracy with the many acting in the interest of the few, which has its origin in prejudice and in political blindness.

The edge of the two-edged sword intended for the people is cutting its way into their pockets and life, but it is not yet understood in a way to remove prejudice or political blindness from the majority of the people, combination is not at this time sufficiently strong in its application to meet the demand there will be upon it when it is organized as it is intended to or-

ganize it for billion dollar uses. When combination has continued to be made till it has acquired the dimensions intended by those engaged in the work, which will be in due time secured, there will be more people calling out "What is the matter? Why is it so?" than there are at present engaged in the work of acquiring information upon a subject that will in the future engage the attention and effort of the best minds in the world. The history of the race shows that man is inclined to be spasmodical in action. More particularly is he spasmodical in matters of reform, which always includes some advance to a higher plane in his moral life. The world has not known any such reform as it will engage in making in the future under conditions which are in course of preparation at this time to bring it about.

LOCATION OF CLAIMS

Every day the Journal learns of three or four locations of promising claims (according to the locators' stories each is a Comstock extension) and in future this paper will endeavor to keep close track of the locations made in the future unless they come too thick and fast. Here are a few:

James L. Gregory, Jacob I. Greiner and Thomas H. Moore have staked out the Lake View claim. It is in the Washoe district, one mile and a half east of Little Washoe lake and one-eighth of a mile from the Harris mine.

N. B. Clark and Steve E. Currie have located the C. & C. tunnel site on Peavine mountain.

The Julia claim has been taken up at Steamboat Springs by Vinnie L. Hopkins and J. W. Hopkins. It was the first claim notice filed for record in the newly organized Steamboat district.

JUSTICE LINN'S MORNING LEVEE.

Johnny Wilson, a wild and woolly native son of Nevada, was handed sufficient time in which to reflect whether or not it pays to look on China gin when it lendeth not the color to the cup.

George Dixon and Al Shepherd preempted a roosting claim in violation of the existing laws regarding the same and were haled before the police judge. They were given twelve hours' time to get rid of themselves.

George Williams, James Welsh and Arthur Murphy were arrested on nuisance charges, but were given a good sized chance to do it some more.

Another Strike Reported.

It is rumored the U. M. Slater Mining Company has struck pay ore in their mine in Wedekind district. Superintendent Sullivan admitted that good assays had been obtained, but would not state their value.

Lends color to the rumor is the fact that the working force in the mine will be increased this week.

Permit to Wed.

A marriage license has been issued to Louis G. Wedekind, son of the owner of the bonanza mine of Bryan City, and Miss Vernie A. Fraser, daughter of a well known rancher in that locality. The ceremony has probably been performed ere this, but the Journal has no particulars of the happy event.

At the Asylum.

Repair work is in progress around the institution.

Negotiations are still in progress for the Sullivan interest in the Sullivan-Kelly ditch.

Work will begin in a month or two on the new hospital building.

Large But Low Grade.

Messrs. Raftery, Mickell, Upde and Pothoff are developing a ledge in the Steamboat District that measures twenty-five feet across. It carries sulphurets and assays about four dollars a ton in gold and silver, in addition to some copper values.

Lots o' Money.

The Reno fire department will be in a better financial condition in a day or so. Of the fifteen bonds for \$1,000 each, thirteen have been sold and as a matter of course, for par. In a few days they will be signed, issued and paid for.

Funeral Notice.

All members of Reno Lodge, No. 13, F. & A. M., are requested to meet in Masonic Hall Monday afternoon at 1:30 o'clock to attend the funeral of the late Brother David Evans.

F. D. KING, W. M.

Services in German.

Rev. J. F. W. Horstmann of Gardnerville, Nevada, will preach to the Germans of Reno Monday evening, April 15th, at the Congregational Church. Services will begin at 7:30. All Germans are invited.

Got Out On Time Though.

The Surprise Valley Record, a paper published up north somewhere, ran out of paper last week and got their issue out on all sorts of scraps. The Journal's copy was printed on half of an old "outside."

More Extensive Work.

A company has been organized at Washington, D. C., to work the claims recently discovered at New Jerusalem, twenty miles north of Reno. They are showing up well in gold, silver, copper and lead.

Everyone forty years of age and over should use glasses. Don't wait if your eyes bother you, but go to the Frank Golden Jewelry Company and be examined by the only graduate optician in Nevada.

Anyone in need of a good clock should take advantage of the great special clock sale for one week only at the Frank Golden Jewelry Company's store.

DRESS UP

In an up-to-date Spring Suit.

A large line of Spring and Summer Suits in all the latest patterns and styles has just been received, and will be sold at greatly reduced prices. A fine line of young men's Summer Suits, ages 15 to 18, for \$8. Children's suits from \$1.50 to \$5.

An Old Fiend.

Special to the Journal.

BUTTE, Mont., April 6.—Evelyn Blewitt, a nine-year-old girl, was decoyed into a cabin by John Warne, 71 years old, to-day. He assaulted and then murdered her by crushing in her head and breaking the neck. He then set fire to the building and almost cremated the body. Warne was arrested to-night and it is feared he will be lynched.

WANTED A RECEIPT.

The Old Lady Insisted Upon Following Instructions.

The old lady was not used to traveling on the Broadway cars. She had evidently spent her youth and middle age in the rural regions, but doubtless she called old Ireland home. The conductor, who differed little from the rest of his kind, came through the car calling for fares. The old woman held out her hand, in which a nickel was tightly clutched, then drew it suddenly back as if she had made some mistake. "I want my 'resate' first," she said in a rich Doollan dialect.

The conductor paid no heed; but, holding out his hand, demanded, "Fare, please."

"But I want my 'resate,'" she repeated. "No receipts, 'lady," said the stolid conductor. "I'll have to have your fare."

"My son told me not to give up any money without getting a 'resate,'" insisted the old woman stoutly.

The kind lady with the sweet face and Paris clothes proffered the assurance that it was "all right," that nobody got receipts.

"See, I pay my fare without one," she said, giving the conductor a dime and the woman a reassuring smile.

But the woman was stubborn. "I want my 'resate,'" she reiterated.

The conductor mechanically held out a nickel to the kind lady of the Paris gown, but she shook her head, nodded toward the old woman and smiled.

The conductor without a word passed on through the car, which lurched and swayed through Union square. She of the "resate" shook her head grimly, settled herself back in her seat and held on to the nickel, determined not to relinquish it without the necessary acknowledgment.—New York Mail and Express.

Queries of Prospectors Answered
With Mathematical
Exactitude.

X. T. Prosser Valley.—The earthquake you say you felt in Prosser Valley last Wednesday was not an earthquake as earthquakes usually go, but perhaps it would be just as well for you to be a little careful when you go back into your tunnel. If the ground is at all shaky, it is probable that a cave-in has occurred.

The shaking of the earth you felt was caused by carelessness on the part of Sam Moxingo who, while juggling with six x six SHREDLURDL with six trains of loaded freight cars, accidentally let two of them drop.

Look out for a similar quake next week. Sam is going down to Frisco to test the armor plate on one of Uncle Sam's new battleships. He will undertake to bite a piece out of the prow, and if he does so without using any Worcesterhire sauce the armor will be accepted.

One of the companies mining on the Comstock lode recently presented him with a beautiful toothpick made of a twenty-inch steel crank-shaft and there is no doubt that if other mining men would extend similar courtesies Mr. Moxingo would be more careful while exercising.

Why not give him for a watch charm one of the big cages that used to go down to the twenty-five-hundred-foot level?

R. T. J. Reno.—Mining notices need not be always made out in the same form. Considerable variation in wording is allowed and brevity is always commendable.

However, one may carry a virtue too far. A notice set up about two miles north of Reno is written on the burnt-off end of a railroad tie, and reads as follows:

"This is the Granite Hill Mine, E. E. GUERBER."

No one has yet tested the value of this notice by jumping the "mine" but every man who has read it has accepted it as conclusive proof of the ability of Mr. Guerber to successfully operate a wheel-barrow and a Sacramento valley rancher has begun negotiations with a view to having him buck wheat sacks during the coming summer.

BURGLARS AT WORK AGAIN.

About three o'clock yesterday morning some miscreant used a coupling link with telling effect on a window in the Racket store, No. 123 South Virginia street.

After smashing the glass the thief helped himself to a quantity of cheap jewelry. He got away with forty-four rings and a quantity of collar buttons. M. Kienast, the proprietor of the store, values the stolen goods at not more than \$6.50.

Night Watchman Nash heard the glass breaking and arrived on the scene in time to see the fellow's coat tails vanish into the enchanting distance. He is thought to have been a hobo and to have taken an east-bound freight train out of town. Officers east of Reno were notified to look out for him.

BELL HAS THE LEAD.

Those Who Enjoy Laughing Should Not Miss the "Evil Eye" Production.

The New Strike Near the Wadsworth Mine Promises to be of Great Value.

That Charles B. Bell has struck the mother lode of the Reno district is a fact now established beyond a doubt. The first bucket that came up from the 115-foot level after ore was encountered yielded at the rate of \$10 in gold and 120 ounces in silver. Specimen rock gives fabulous assays.

Ore is now coming out at a lively rate. Three wagon loads of lumber were hauled out to the diggings yesterday and an ore house is already under construction. Steve Currie has received the contract to haul the ore to the railroad. It is not yet determined how extensive the lead is, but no waste is now coming out of the shaft.

News of the strike took a big crowd of people out to Bryan City. James O'Sullivan counted twenty-five loads of people passing his house in a little over an hour yesterday.

The result of this find will be to stimulate more extensive development work in the district. Heretofore prospectors were not sure that the bonanza rock extended beyond the limits of the Reno Star workings. Now the prospects are good for getting a mine with depth anywhere on the formation. The belt of mineralized porphyry is nearly a mile in width and is a number of miles long. It all shows surface values approximating a strong trace of gold and an ounce of silver.

DISTRICT COURT PROCEEDINGS.

Yesterday a busy session of the Superior Court was held. The persons indicted by the last Grand Jury were arraigned. Their cases were disposed of as follows:

Gus Jones and M. Robinson, who were charged with grand larceny, pleaded not guilty and their trial was set for April 24th.

Will Hammersmith and Harry Davis, who are charged with burglary, pleaded not guilty. They will be tried April 25th.

Elmo Soso, charged with murder, pleaded not guilty. Next Tuesday morning his case will be set for trial.

Frank Edwards and Henry Hoffman pleaded guilty to selling whiskey to Indians. They will receive sentence Tuesday morning.

August Villanini pleaded guilty to selling whiskey to an Indian. He was sentenced to pay a fine of \$100 and \$25 costs.

The latter sum goes to the officer who secured his conviction.

Judge Currier expressed himself as in doubt whether this new law making Villanini's offense a felony should be strictly enforced, as it encourages Indians to buy whiskey in order to secure the informant's fee by securing the conviction of the persons from whom the liquor is purchased.

Near Neighbors.

It is said by men intimate with both Mr. Wedekind and Mr. Bell that the new strike was made within a very few feet of where the former is extracting ore. It is said that the miners can hear each other working. As both mines are closed to the public, it is impossible to verify this rumor.

Fifty of Our Peers.

District Judge Currier and County Clerk Fogg spun the jury wheel yesterday and captured the names of fifty worthy and inoffensive citizens who will be obliged to serve their country as trial jurors during the next term of Court which begins April 22.

Many Things Are Meant
By many dealers who claim to handle groceries. When they advertise the word "GROCERIES" no mention is made of PRICE. When price is mentioned QUALITY IS OVERLOOKED. Again, sometimes they dwell on the virtues of a LARGE STOCK. In this case no claim is made to carrying FRESH GOODS.
We Preach the Three Main Virtues of Groceries—
Quality Quantity Price
They are mentioned in their regular order and the happy combination is causing hosts of pleased patrons at our store.

ABOUT MINE AND MINER
Notes Gathered From Exchange About This Industry.

A mill with a capacity of one hundred tons daily is to be constructed at State line.

A Salt Lake mining man, who has been looking over the diggings at De Lamar, Nevada, says the camp is exhibiting over most important developments in the lower workings of the April Pool. According to his report the management has just encountered the Jumbo vein on its dip and followed it to a depth of twenty feet, while careful sampling of the ore revealed an average of \$15 per ton in gold.—Tribune.

A Women's Awful Peril.
"There is only one chance to save your life and that is through an operation" were the startling words heard y Mrs. I. B. Hunt of Lime Ridge, Wis., from her doctor after he had vainly tried to cure her of a "rightful case of stomach trouble and yellow jaundice. Gall stones had formed and she constantly grew worse. Then she began to use Electric Bitters which wholly cured her. It's a wonderful Stomach, Liver and Kidney remedy. Cures Dry-pile, Loss of Appetite, Try it. Only 50 cent. Guaranteed by S. J. Hodgkinson Druggist.
